2. COMPOSITION / INFORMATION ON MATERIAL CONTENTS

40 – 45% of the product consists of decor paper and 55 – 60% of aminoplast resins. Printed decor paper is manufactured with water-based inks.

3. HAZARDS IDENTIFICATION

No known hazards.

4. FIRST AID MEASURES

Not required.

5. FIREFIGHTING MEASURES

Fire extinguishing powder, foam and water are suitable extinguishing media as the substrate shows a propensity to form incendiary embers when burned; CO₂ is less suitable due to the possibility of the fire flaring up again. A fire involving the product may lead to formation of such hazardous decomposition products as carbon monoxide, carbon dioxide and smoke, requiring respiratory protective equipment and fire-protective clothing to be worn. Fire residues and extinguishing water are to be disposed of in accordance with local regulations.

6. MEASURES IN CASE OF UNINTENTIONAL RELEASE

Incinerating is recommended for this product; relevant country-specific disposal regulations to otherwise be observed.

7. HANDLING AND STORAGE

The product is brittle – the wearing of gloves is recommended to protect from injury. To avoid curtailing the warranted storability please store in cool conditions (<25 °C). Protect from solar radiation and moisture. Do not stack.
Storability: 2–6 months in the original packaging at max. 25°C and at a max. relative humidity of 50%.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTIVE EQUIPMENT

Gloves are recommended to prevent injury. Avoid eating, drinking and smoking at the workplace and ensure cleanliness. Please wash face and hands at end of shift.

9. PHYSICAL AND CHEMICAL PROPERTIES

The product is solid in form. The colour varies according to substrate.

10. STABILITY AND REACTIVITY

Avoid solar radiation and moisture as well as pressure exerted from above (stacking). The 2 – 6 month storage period in the original packaging to not be exceeded. Do not exceed the max. storage temperature of 25 °C at a max. relative humidity of 50%.

11. TOXICOLOGICAL INFORMATION

Allergic susceptibility to melamine cannot be excluded. Toxic effects are otherwise not known.

12. DISPOSAL CONSIDERATIONS / ECOLOGICAL INFORMATION

Incinerating is recommended for this product; relevant country-specific disposal regulations to otherwise be observed. In general, disposal as household waste is possible.

13. LABELLING

Non-hazardous material. The product is not subject to labelling requirements.

14. REGULATORY INFORMATION

Not required.

15. OTHER INFORMATION

The above information is based on our present level of knowledge and experience. It serves to describe the products in terms of safety requirements and does not constitute a guarantee of characteristics.
